WHITNEY-JENSEN No. 5 JR. HAND METAL PUNCH

This bulletin contains complete information on Whitney-Jensen's No. 5 Jr. Hand Metal Punch. We have tried to show every possible dimension with relation to size and clearance that may be useful.

Main parts of the No. 5 Jr. Punch are heat treated drop forgings. The Whitney Metal Tool Company has manufactured this tool for over 30 years. Hundreds of thousands are in constant daily use by virtually every known sheet metal tradesman. Many uses other than hole punching are made of the No. 5 Jr.; possibly you may see a special application for your own use.

Prices shown are F. O. B. the factory. Export packaging, freight, and duty must be added to the prices shown for foreign shipment.

The Whitney Metal Tool Company manufactures a great many other tools and sheet metal machinery. Information on the complete line will be gladly sent to you. We hope you will find interest in the No. 5 Jr. Hand Metal Punch.
